## STRUCTURE

The R.S.A. San Francesco, managed by the company RSA srl with headquarters in via San Francesco di Fuori, 14, Alatri (FR), is a residential cycle structure, identified in art.1, paragraph 1, letter a), of the Regional Law. n. 41/2003, which provides social-welfare services aimed at maintaining and recovering the levels of autonomy of elderly people and people with psycho-physical disabilities and at supporting their family, on the basis of a personalized intervention plan, such as defined by art.1, paragraph 2, letter c) of the Regional Law. n. 41/2003. The Residenza Sanitaria Assistance is an integrated socio-health extra-hospital structure with a prevalent healthcare value, aimed at providing hospitality, direct and indirect healthcare services of a therapeutic and rehabilitative nature, as well as the prevention of the worsening of physical, mental and functional health problems due to chronic or acute pathologies in elderly or disabled people who cannot be cared for at home and who do not require hospitalization in hospital-type facilities. The R.S.A. represents, in services aimed mainly at the elderly, the most advanced stage of protected residentiality, which offers itself as a valid alternative when family support is lacking, or when staying in a family environment is unsustainable.

The R.S.A. has the aim of welcoming people who are not self-sufficient for various reasons, united by the impossibility of being assisted at home.

The residential cycle structure for the elderly constitutes a socio-welfare response to the need for residential, protection, self-realization and social inclusion, for the benefit of the self-sufficient and partially self-sufficient elderly person and of people with psycho-physical disabilities who require ga- rations of protection throughout the day.

The structure is aimed at offering its guests a suitable relational, training and rehabilitation space and is spread over two buildings, respectively three floors and two floors with the relevant appurtenances.

The R.S.A. It has 30 beds under welfare regime, respectively 10 for psycho-physical disability and 20 for senescence. The rooms sleep 2, 3 and 4 and are all equipped with bathrooms. Each room can be customized by the guest based on his preferences and habits.

The R.S.A. is compliant with the Personal Data Protection Regulation Gdpr 2016/679.

Civil Liability Insurance Policy No. RCI00010000495.

## WHO IS IT ADDRESSED TO

The facility has 30 places accredited by the Lazio Region and provides healthcare services under an agreed hospitalization regime. On 4 February 2016, with resolution DCA U00025, it obtained provisional accreditation from the Lazio Region for the 30 beds which are currently affiliated with the Frosinone ASL for the coverage of healthcare costs. The RSA is aimed at elderly and non-elderly individuals who are temporarily and/or permanently not self-sufficient.

In compliance with the provisions of regional legislation.

## I NOSTRI SERVIZI
